

****FOR IMMEDIATE RELEASE**** *Stockholm, November 30, 2023*

Industry leading Ex-Change Parts and Heli-One join forces with Service Framework Agreement for Super Puma Helicopter models

Sweden-based Ex-Change Parts AB, a world-renowned supplier of refurbished helicopter parts, and Heli-One, leading rotor wing maintenance, repair, and overhaul (MRO) provider, have cemented their partnership with the signing of a Service Framework Agreement focused on components for all three Super Puma helicopter models.

Ex-Change Parts AB is distinguished within the MRO-services sector for its extended capabilities, offering sustainability, cost-efficiency, and unwavering reliability to the end customer.

With an already strong track record of collaboration with major MRO companies worldwide, Ex-Change Parts continues to expand its capacity, ensuring the core services required to meet the ever-evolving needs of its customers.

Jens Morten Mørland, Sales Director Europe & Asia at Heli-One, expressed his enthusiasm for the Framework Agreement, stating, *"Our team has decades of experience in maintaining the Super Puma fleet, and this Framework Agreement solidifies our long-term successful business with Ex-Change Parts. We are excited to bring our expertise and in collaboration with Ex-Change Parts deliver premium refined and controlled refurbished parts and components to the market."*

Stefan Widén, Head of Stock Asset Management at Ex-Change Parts AB, emphasized the significance of Heli-One's high capability and quality of SUPER PUMA 225 and 332 platforms in the Norwegian Stavanger premises, stating, *"Its closeness enhances our cooperation and, by this, service and fast availability to our customers."*

The development of MRO services remains a top priority for both companies, as they continually strive to meet and exceed customer expectations.
